Budaörs, ammunition dumps.

1./ Situation: The two ammunition dumps are shown on the attached sketch (marked with numbers 1 and 2).

25X1

1) Both warehouses are built into the mountain, that is, completely underground. Both areas are forested.

2) The entrances to the ammunition warehouses are from the roads leading to them. From the roads, these look like they were some sort of farm building; steps lead up from the road to the building.

3) There are dirt roads in the back parts of the warehouses by which trucks can approach.

4) The internal area of the warehouses is large; several roads lead into them

25X1

5) Both warehouses are equipped with cart railroads.

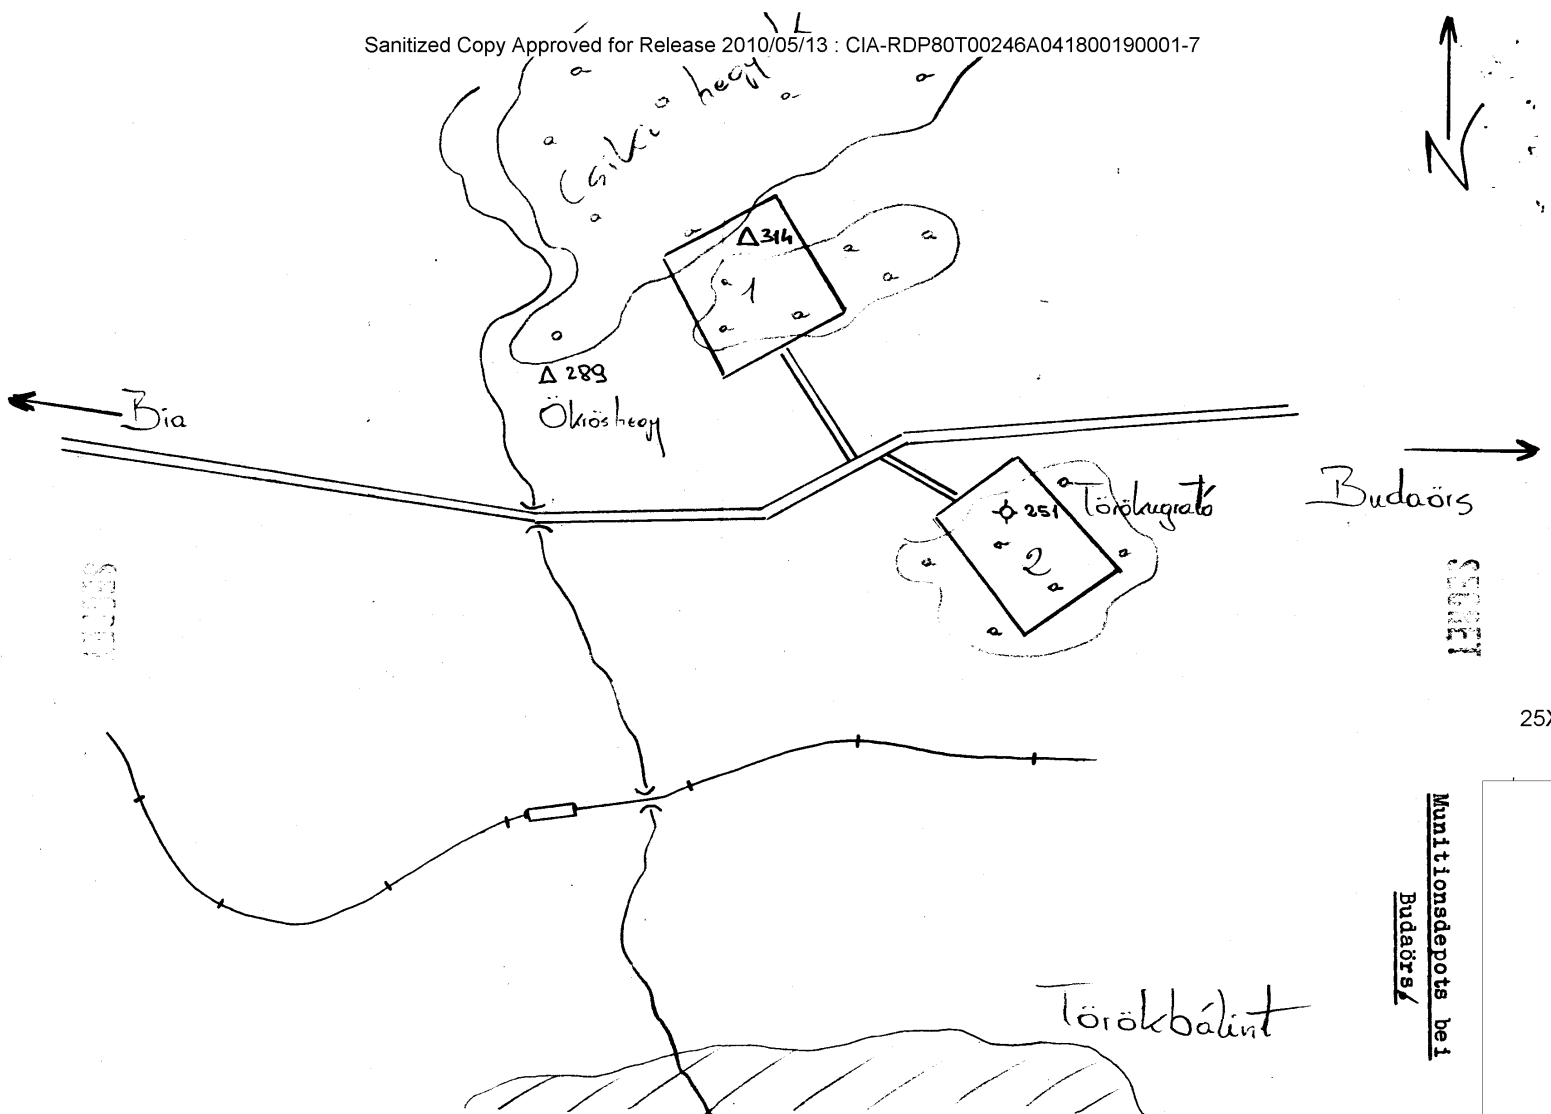

3./ Security: 1) Up to the time of the revolt, blue AVH guarded the warehouses; 2) There is a 3-meter-high double wire fence around the area;

3) There are dogs in both areas;
